Loss Details

Cause of loss	Sudden burst of the supply pipe under the kitchen sink
Peril category	Water (sudden & accidental plumbing discharge)
Was it a flood / external water?	No — internal plumbing failure
Was it sewer/drain backup?	No

Description: While the insured was away for the weekend, the cold-water supply line under the kitchen sink burst. Water ran for an estimated 6–8 hours, damaging the kitchen hardwood flooring, the lower cabinets, and an adjacent area rug. A plumber capped the line and a mitigation company performed water extraction and drying. No mold observed at inspection.
